IN BICYCLES AND WATCHES FOR CONLIGHT SOAP WRAPPERS

During the Year 1897.

Spring comes to us a very welcome visitor and farmers are preparing to enter spring work.

The funeral of the late Mr. G. Sweet, of Huxley, took place at the White church on Sunday morning and was largely attended. Many people expressed their hearty sympathy to the young widow and parents.

Miss M. McElhenny and S. Latimer spent Sunday at John Garrison's.

Mr. Earl Perry was a guest at the Misses Hagerman Sunday.

Our sick, we are pleased to state, are improving.

Mrs. H. Long, is very ill, and little boys are entertained for her recovery.

Rev. B. M. Pope attended the funeral of his only sister on Saturday last.

We are very sorry to learn of the sudden departure of Mr. Earl Perry, who is to become a resident of Deseronto.

Mr. Arthur Fraser was a guest at Mr. Holt, Harley's, on Sunday.

A number of our young men have decided they will not attempt to attend another "basket school" home. Well, it is not good luck, but it is true.

Mr. and Mrs. J. B. Miller left on Tuesday for Philadelphia, Pa., where they will visit their daughter, Edith, of Albert College.

Mrs. W. Perry, of Deseronto, spent a few days at Holt, Perry's of Greenwood Ave.

Mr. Wilson Purdy paid a flying visit to Kingston last week.

Mrs. L. Sharpe went to Belleville on Saturday last to visit her daughter, Edith, of Albert College.

Sunday visitors: Miss Mary Vandyck at Mr. M. T. Vandyck's; Miss Annie Funnell at Mr. John Funnell's; Mr. Albert Dollar and wife at B. B. Vandyck's.

It is with some great amount of sadness we are again reporting the death of another loved one, Mrs. Hoffman, who died on Saturday, 20th, at her daughter's, Mrs. Ed. Kior, after a severe illness of some months. Deceased was greatly loved by all who knew her. The funeral took place at the White church on Monday and was largely attended.

We understand Mr. Williams and family are about to leave us, we will regret very much, as we will feel our loss.

The Epworth League held their election of officers on Friday night, and was as follows: President, Miss Ada Davis; 1st vice, Miss Fanny Funnell; 2nd vice, Arthur Vandyck; Secretary, Miss Maggie Goudier; Treas., Arthur Fraser; Cor. Sec., Chas. Vandyck.

BUTCHERED OR BURNED?

We read with horror of the cruelty and barbarities of them, Weyler in the fair Isle of Cuba, but little reck we of the ravages of that more diabolical King of Grave Diggers, KIDNEY DISEASE, here in our midst.

People of high and low degree drop into graves on all sides of us daily from kidney trouble. We incur it ourselves. We encourage it. We do everything but cure it.

Yes, there is a cure, pleasant as a May morning. Sure as fate, infallible as heredity. Before this wonderful remedy, the agonizing tortures of kidney illness vanish like a snowflake in a fiery furnace.

This cure, of which we sound the praises is DODD'S KIDNEY PILLS. It is not alone a cure, but every one who has tried them. One hundred per cent. of cures we warrant. Here are examples: W. F. Smith, 16 Carroll St., Toronto, says: "I have taken eight boxes of Dodd's Kidney Pills which have cured me of Heart Trouble, Pain in the Back and Dizziness, and other treatments had failed."

D. J. Kemney, Queen's Hotel, Mount Forest, says: "Have suffered greatly from Nervousness, but information as to the effects of Dodd's Kidney Pills in such cases led me to use them, with the result that I am cured."

An Engineer's Story.
LIFE ON A RAILROAD CONDUCTOR TO DISKASE.

Mr. Wm. Taylor, of Kentville, Attached with Kidney Trouble - So-called Curious Personal History - But Dr. Williams' Pink Pills Restored His Health.

From the Kentville Advertiser.

There are very few employments more trying to the health than that of a railway engineer. The hours of labor are frequently long, meals irregular, and rest and sleep hurriedly snatched - between runs. One of the troubles which very frequently attack railway trainmen is kidney disease, which up to a late period has been looked upon as a disease difficult, if not impossible, to totally cure. Although there exist numerous remedies claimed to be cures, the truth is that nothing had been found to relieve the sufferer from this terrible disease until the advent of the now famous Dr. Williams' Pink Pills. Chancing to hear one day that Mr. Wm. Taylor, a resident of this town, had been cured of kidney trouble through the agency of Dr. Williams' Pink Pills, a reporter called upon him at his home to hear from him personally what he thought of his cure. Mr. Taylor said:

Heavy Losses and No Insurance.

The women of Canada lose thousands of dollars every year by having valuable possessions insured by unadvised and imitative package dyes. There being no security or insurance against losses resulting from spurious and deceptive dyes, the women cannot claim damages or expect to be recompensed by the makers of the common dyes.

It is but needless to say that every package of Diamond Dyes is fully warranted to do what is promised for it.

The manufacturers of Diamond Dyes are the only responsible makers in the world of package dyes for home dyeing, and they succeed because their dyes are pure, strong, bright and never fading, and the easiest to use.

NINGA, MAN.

Mr. Editor, I am sending you a dollar for the renewal of THE BEAVER, and I thought I would like to say a few words to you.

We have had a very long winter and lots of snow. Snow began to fall about the 1st of November, and has stayed with little or no respite since.

It is commencing to look like spring now; quite a lot of land can be seen in high places. The snow was about three feet deep. The ice was three feet thick. We have been putting in ice for the better factory, of the land here.

There is not a great deal of money in this business, in this section, for the patrons. It costs too much for having cream and manufacturing.

The butter that was made in the Ninga factory paid the farmer 10 cents a pound, and cost 21 cents for manufacturing.

There have been two very good seasons in this section. In 1895 there was a heavy crop with a pretty good price for good wheat; in 1896 the crop was good, about twenty bushels to the acre, and the price was about 75 cents.

It was in November, so there has been great deal of money paid for wheat in Manitoba this year, we were speaking to a buyer the other day, and he told me that his purchases of wheat would average 75 cents a bushel.

The wheat is pretty near all the elevators. If spring comes down there will be a large acreage of wheat sold, and the land here is very good.

I was up at Whitewater visiting Mr. C. F. Keller and sons. They produce printing in about 1000 copies.

No. 1 wheat is now 57 cents; oats, 20 to 22 cents; barley, 21 cents; pork, 12 to 14 cents; live weight; beef 5 cents, and \$2.50 for choice animals, live weight, with 2 per cent shrinkage.

I see by the papers that the emigration to Manitoba will be large this year, and the people go along where the emigration agent tells them. I think if the parties would go to Manitoba and stay some time, they would be better off.

There is plenty of railroad, mortgage company and private land that a man with some money can buy, and without going so far from railroad and elevators. Drawing the grain many miles to the coast, and then reducing the price more than intending settlers think.

There have been several carloads of good horses coming out of Ontario, and have sold at very good prices - from \$100 to \$110, and some extra ones a little more.

Some of THE BEAVER readers have been asking about the taxes in Manitoba. My land is in two school municipalities; \$5.50 on one quarter, and \$10.50 on the other; one school is paid for the other is a new one; so our taxes are pretty reasonable yet.

There were some pretty bad hailstorms in different parts of Manitoba last summer, which will make it pretty hard for the farmers to get any crops. But I think there will soon be arrangements made to provide for them. They are wanting the government to take it in hand, and even bit of land that is assessed and raise money from every municipality to pay for a crop destroyed by hail, \$4 per acre for wheat, and \$3 for barley and oats. I think that would be very cheap insurance. It will not exceed five mills on the dollar.

We receive the welcome BEAVER every Wednesday night, and are very much pleased when it comes, as we hear from a great many of our friends. We are glad to see it enlarged to eight pages, but we here in Manitoba are a little behind. We have no paper but if there was another page put to it.

Yours truly, Geo. Towas.

Used Eighteen Boxes of Dodd's Kidney Pills - The Stone Dissolved and Removed - Known of Others Cured.

Shelburne, March 29, (Special). - Mr. John McGill locally as well as far and near as a physical giant and glory in his strength, came to be a great sufferer and tell his case as follows: "I do not hesitate to speak of Dodd's Kidney Pills as anything else exactly as I find them. If a medicine can be so good, I think it will cure others who may say so."

It is true I had been suffering for some time with bladder trouble and learning of a cure made in a similar case by Dodd's Kidney Pills I commenced using them.

"In all I have used eighteen boxes and have dissolved the stone and have entirely cured me of any sign of difficulty. I do not hesitate to speak of Dodd's Kidney Pills in the highest terms of praise for I know of many persons who have been cured by them."

SANDHURST AND CONWAY.

Mr. E. H. Phippen, proprietor of Conway cheese factory, has had it fitted up in first-class condition, having raised the floor and ceiling and making it warm and bright, and making the whole season if required.

Miss Edith Curran has returned home after spending a month visiting friends in the west.

Mr. Hugh Hill met with an accident while sawing wood for Mr. H. Robinson and got his fingers smashed in the cross power.

Miss Lena Sills was the guest of Miss Edith Curran on Sunday.

Mr. J. Carl and son, William, spent Saturday and Sunday at her mother's, Mrs. R. Young.

Mr. and Mrs. F. Young spent Monday at last brother's, Mr. G. Phippen.

Mr. Harrison, who has the contract for building Conway store, has the frame up and expects to have it finished by the 1st of May.

Mr. Higgins, of Stella, moved to Conway on Monday.

Miss Roddick, of Port Hope and Miss Neilson, of Stella, returned home on Monday after spending a week visiting friends.

Mr. D. Brooks has moved to Cressey where he has opened up a general store.

Mr. Oliver Robinson, of Bay Road, Portmorton, accompanied by Miss Martha Phippen, of Conway, spent Tuesday evening at Mr. and Mrs. T. Young's.

Miss Annie Shorey is at present renewing old acquaintances at Kingston.

Mr. E. H. Phippen, your last week's correspondent, must have been wrong in the information about some of our industries, and being so good as to visit and enjoying excellent health.

Mr. Allan Neilson, Jr., spent Tuesday evening at home.

The hockey club has broken up for the season and the principal assumption for the summer will be baseball, fishing, canoeing and hunting.

On Monday, 23rd March, the annual chess meeting was held in the dining room of the factory. Mr. H. Vandyck was elected president and Mr. E. Wright secretary. The minutes of last meeting were read and adopted.

Mr. Phippen's statement of the society's revenue after some little discussion it was agreed that Mr. Phippen get a 10 for making the chess and furnish the board. The fees for the season are as follows: \$5.00 for the season, \$2.50 for the board, and \$2.50 for the board.

injections feeding will cause their death. At present we are devoting the best of our time to the care of our children. A physician supplies us with a large quantity of fever and other mixtures, and all day long our compound is like a small dispensary. We have had remarkably few deaths, as not more than six children have died. It is almost impossible to keep them from eating food which would cause their death. They have an abnormal craving for solid food. A few days ago a little boy not more than 6 years of age while lying under his blanket near the box in which the grain is kept dug a hole through the box, and was found shortly after eating the raw grain. A large quantity was concealed under his blanket. The discovery probably saved his life. They are very deceitful about their food, and try very hard to get an extra supply, secretly declaring that they have not had anything to eat. It is pitiable to hear them crying and begging for food, not understanding our kindness in keeping it from them to save their lives. It will be several months before they will be able to take food like healthy children. You can understand the necessity and love required in day after day, care for these children who have no idea of the laws of sanitation and health, but He who said, "suffer little children to come unto me," has wonderfully softened our hearts towards these little famine victims; and when we have to send any away to other schools it is almost difficult to decide whom to send, as if we were their parents.

When the famine began we had no money for the support of famine children; nor did we know where it was to come from; but we knew after we had the children have to come to us. God has sent us money through His people in America, England and the Colonies, and we believe that He will continue to care for his little ones. The cost of a child's support has risen from \$15 to \$25 a year, or \$25 to \$40. Those who help us may kindly send the money to be for foreign post office order or bank draft on London which can be sent at almost any bank, and we will forward it to the children.

If you would like to send a photograph of famine children to every donor.

The number of people on Government relief works at present is 2,000,000. The Government is doing a great work in saving life. The far we have not asked any help from any funds given to the Government. In addition to supporting the children we are feeding a large number of people in the winter.

Mr. A. Macdonald, the Lieutenant Governor, in a public address at Lucknow the other day stated that we are in the midst of the worst famine in the world.

Spring Wall Paper
C. B. SCANTLEBURY
MAKES AN ANNUAL REPORT
Perfection has been reached in the New Wall Papers we are showing this spring.
Our new sample books are now ready. There are really no market changes in the styles. Whatever your taste dictates, it can be successfully carried out from among the light, dainty shades to the darker richer tones of Reds, Blues, Greens, Yellows, Browns, Violets and Umbers, Greens, Siennas, Greys, Heliopores, etc., while our prices are lower than ever.
If it is all convenient to visit, our warehouses we will place all of our samples at your disposal, and there are none better in this whole land.
The new goods are simply beautiful - the only trouble is, the common "Wall Paper" does not begin to convey to your mind the wealth of design and coloring in these exquisite interior decorations.
If you cannot visit, please write a postal for samples. Just say what number of papers, what prices you want to pay, and where you saw the advertisement.
The samples are all done up in book form and in complete sets of Wall Papers and Ceiling, and are sent to you free of charge either by mail or express. These samples enable you to make an intelligent selection as to what you wish for. We pay express charges on orders.

THE EDITOR OF THE "DOMINION DENTAL JOURNAL" AND DEAN OF THE DENTAL COLLEGE, MONTREAL.
Dr. W. Geo. Beers writes: Dr. Levers has been fortunate enough to produce a preparation (Quicksilver) which really has no rival in the Materia Medica of dentistry. I have investigated its merits, and find it, without exception, the most useful and convenient preparation for the purpose I have met with. We know very well, too, that chemicals set out of preparation that do not harm parts of the body. From personal experience, and the unanimous verdict of Dr. Levers' conferees in Quebec city and Montreal, we have no hesitation in recommending the preparation, not only as an invaluable addition to dental therapeutics, but as a family friend in emergencies, where one cannot at once reach the dentist.

A Nerve Telegraph.

Cranky persons frequently owe their in-rascability to the wearing of uncomfortable shoes.

A mysterious telegraph exists between the nerves of the feet and the brain.

Dr. Brown Squard tells of a patient who, whenever he bore upon his great toe became violently insane. The bisecting of a nerve cured him.

Constant though slight pain from inflamed or compressed feet wears upon the system, as the falling drops of water do upon stone.

REV. DR. TALMAGE ON A SUBJECT OF WORLDWIDE INTEREST.

He Shows What We Owe the Greeks—A Debt in Language, Art, Religion and Medicine—The Best Way to Pay the Debt.

Washington, March 25.—As Dr. Talmage's sermon is published on both sides of the ocean, this discourse, a subject of worldwide interest will attract universal attention. His text was Hebrews 1, 14, "I and my Father both so the Greeks and to the barbarians."

At this time, when that behest of abolitionism, Mohammedanism, after having gorged itself on the carcasses of 100,000 Armenians, is trying to put its paw upon one of the diplomatic nations, that of the Greeks, I preach this sermon of sympathy and protest, for every intelligent person on this side of the sea, as well as the other side, like Paul, who wrote the text, is debtor to the Greeks.

The Greeks, "the people," cried out, "Paul, with a master intellect of the ages, ready to be unlimbered against the Hellenes, and I am a Greek." Paul, with a master intellect of the ages, ready to be unlimbered against the Hellenes, and I am a Greek.

In this letter to the Romans, which Christendom admires so much that he had it read to him twice a week, he said: "I, the apostle, am a Greek."

I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek.

I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek.

I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek. I, the apostle, am a Greek.

Scott's Emulsion makes

the blood richer and improves the circulation. It increases the digestion and nourishes the body. It corrects diseased action and strengthens the nervous system.

In a word, it places the body in the best possible condition for preventing the germs of Consumption from beginning or continuing their work. In that one sentence is the whole secret. Book covering the subject very thoroughly sent free for the asking.

Books or through learned presentations.

books in literature. They can out-argue, out-outrage, out-outrage you. Not through the gaze of the head, but through the gaze of the heart, you might be brought to a realization of what religion can do for a soul. They have found it. Oh, tell them how Christ has helped you all the way through! They are in bewilderment. Oh, tell them how many hands of joy heaven beckons you upward! "When Greek meets Greek, then comes the tug of war," but when a warm-hearted Christian meets a man of reason and sympathy and comfort and eternal life, then comes victory. If you can, by some incident of self-sacrifice, bring to such scholarly men and women, what Christ has done for their eternal rescue, you may bring them to the fold of the Christian church.

When Demosthenes eloquence and Homer's imagery would fall a kindly heart through success. A gentleman of this city would have been a statesman of a few days ago among the mines of British Columbia. It seems that Frank Conant, an American, had been loaded on an iron bucket of coal, and Jim Hemmerson, a Canadian, was being lowered by the bucket over a winch, when the winch broke, and the loaded bucket, with Jim Hemmerson, fell into the mine. The miners, seeing what must be the result, rushed to the rescue, and Jim Hemmerson, with his head and arms broken, was brought up.
